HOW TO USE THE MEAL PLAN

We know metabolisms are all different, so we've built this meal plan with that in mind, hoping to provide enough structure that it makes your nutrition easier, but enough flexibility that it works for each individual.

Here's how it works. We've set up three primary meals per day, but you get to choose all of your snacks (and desserts). If you like to eat more often throughout the day, include smaller, less filling snacks more often. If you feel content with bigger meals, stick to the meal plan and only have 1-2 snacks per day. Do what works best for you, and what's easiest for you to stick to your program.

Remember – if it's too complicated or restrictive, you won't be able to keep it up. The goal here is to find a lifestyle that feels second nature to you.

Last thing. If there is a recipe in the meal plan you don't like, you are welcome to swap it out with another. Any recipe under the "Batch Cooking" or "Entrees" section of the site is approved. If you find a recipe online you want to use but aren't sure if it's approved, just reach out to 60day@lt.life.

You can find all 60day recipes at lifetime60day.com/recipes

THE BASE

Each day is programmed to have about 70% of your daily total calories needs (from breakfast, lunch and dinner). We've got recommendations below on your total calorie needs, but this is where that flexibility comes in if you already know your metabolism and your body – if you need more calories than what we recommend, choose your snacks accordingly (or double up on your servings). We also include a page on calorie add-ons – quick ingredients you can add to any meal to bump it up when needed (page 11).

WOMEN

We recommend shooting for about 1,800 calories per day, with the following macronutrient breakdown:

- Protein: 30% or 135g
- Carbs: 35% or 170g
- Fat: 35% or 70g

MEN

We recommend shooting for about 2,500 calories per day, with the following macronutrient breakdown:

- Protein: 30% or 185g
- Carbs: 35% or 220g
- Fat: 35% or 95g

HOW TO USE THE MEAL PLAN

COOKING FOR ONE

If you are cooking for one, halve each of the recipes in the meal plan. Most include four servings – halving the recipes (and ingredients) will give you two servings.

COOKING FOR TWO

Follow the meal plan and recipes as written. Males should include an extra 100-200 calories per meal and snack.

COOKING FOR FOUR

If you are cooking for four, double each of the recipes in the meal plan. Most include four servings – doubling the recipes (and ingredients) will give you eight servings.

TIPS TO 60DAY

THE RIGHT WAY

The 60day meal plan isn't just about losing weight. It's a lifestyle program that includes eating the right foods and in the right quantities to achieve your healthy way of life. Follow these guidelines to ensure your best results.

- ✓ **WASH YOUR PRODUCE**
Helps remove pesticides and bacteria.
- ✓ **CONSUME AT LEAST 6 TO 8 SERVINGS OF VEGETABLES DAILY**
One serving is 1 cup raw or ½ cup cooked.
- ✓ **CONSUME 2 SERVINGS OF FRESH FRUIT DAILY**
Organic berries and cherries are high in antioxidants and low in natural sugars. One serving is ½ cup fruit (1 cup berries), 1 small piece of fruit or ½ banana.
- ✓ **CONSUME HIGH-QUALITY PROTEIN WITH EACH MEAL**
This helps to stabilize blood sugars, energy level and cravings as well as provides amino acids needed for to build muscle. Try to include both animal and plant-based protein. Aim for 1 gram of protein per pound of goal weight.
- ✓ **CONSUME OMEGA-3 FATTY ACID SOURCES SEVERAL TIMES PER DAY**
These essential fats are critical for building healthy cell membranes and reducing inflammation. Get them from wild-caught, fatty fish (salmon) and take a daily fish oil supplement, as plant-based sources are not converted well by humans.
- ✓ **INCREASE YOUR DAILY INTAKE OF WATER**
Water is the most important nutrient for your body. It cleanses your organs and helps flush toxins and waste from your cells. Optimal intake is half your goal body weight in ounces.

ORGANIC VS. CONVENTIONAL

If you're on a budget and wondering what items you should buy organic and what items you can get that are conventional, here's a list of foods to buy organic when possible — as these foods are grown with the most pesticides. Those not as important to buy organic are grown using the least amount of pesticides.

- Cucumbers
- Grapes
- Hot pepper
- Kale

HOW TO BUILD A SHEET PAN MEAL

Follow these steps for an easy, low-effort option for lunch or dinner any day of the week.

1. START WITH THE RIGHT SET UP

Choose a sheet pan that's around 18" x 26" and has a 1" tall rim around the edge. Line the bottom with either parchment paper or aluminum foil, and spray or rub with olive oil or coconut oil.

2. CHOOSE YOUR PROTEIN

Choose approximately 1 lb. of your protein (1 lb. will feed 2 people twice).

Meat	Temperature	Time
Chicken breast	400° F	25-35 minutes
Salmon	400° F	8-12 minutes
Tilapia/Halibut	400° F	8-12 minutes
Pork Chops	400° F	25-35 minutes
Shrimp	400° F	10 minutes

3. CHOOSE YOUR VEGETABLES

Ideally, choose 2-3 vegetables that cook at the same rate (add vegetables to the oven in intervals). You should include about 8 cups of vegetables total.

Vegetable	Temperature	Time
Pumpkins, Rutabagas, Spaghetti Squash (halved), Artichokes (whole), Acorn Squash (halved)	400° F	45-60 minutes
Beets, Cabbage (wedges), Carrots, Kohlrabi, Parsnips, Potatoes, Sweet Potatoes, Turnips, Butternut Squash	400° F	30-45 minutes

Asparagus, Green Beans, Corn, Onions (chopped), Peas, Bell Peppers, Radishes, Yellow Squash, Zucchini, Garlic	400° F	10-15 minutes

4. ADD FLAVOR

Flavor with healthy fats (like olive oil and butter) and top with seasonings, like salt & pepper, lemon, rosemary, oregano, etc.

THE KEY TO MEAL PREP

Setting aside time on the weekends to batch cook multiple servings in bulk ensures you have easy, delicious go-to's during the week. Batch prepping individual ingredients (like boiled eggs or roasted veggies) also allows you to easily throw together meals or grab healthy snacks.

For the recipes included in this program, set time aside a few days per week to batch cook most of your meals for the next few days all at the same time. We'll prompt you on the days we recommend doing meal prep, based on the meals you're assigned during the week.

Then, save them in individual glass containers once they're cooked so that you have easy grab-n-go lunches & dinners. Be sure to save the extras that you do not plan to eat this week in their own containers and freeze too - you'll have healthy dinners ready to defrost and reheat in no time.

In addition to the meals and recipes we'll provide, we also recommend batch prepping additional foods to have on hand – for snacks, emergency meals, or just back up if you're still hungry or need something post-workout.

These are our top individual foods we recommend batch prepping:

1. Rice or quinoa
2. Hard boiled eggs
3. Bacon
4. Roasted veggies
5. Chopped or sliced veggies – for snacking or quickly sautéing
6. [6 Ingredient Pulled Chicken](#) – for salads and lettuce wraps
7. Overnight oats
8. Baked sweet potatoes
