Your To-Do List

PRE-KICKOFF

- Read through this guide to prepare for the 60day Challenge
- Schedule your initial consultation with a personal trainer in club
- Register for the 60day Kickoff Event on September 10
- Join the optional [WHOOOP Challenge](#) for more insights and added prize opportunities

KICKOFF WEEK

- Complete your initial consultation with a trainer
- Attend the 60day Kickoff Event
- Take your starting measurements
- Take three (3) "before" photos (front, side and back)
- Download the [Life Time Training App](#) and enroll to receive your workouts
- Read the rules at lifetime60day.com/rules

DURING THE 60DAY CHALLENGE

- Complete weekly progress check-ins using the [Life Time Training App](#)
- Complete weekly challenges using the Life Time Training App to win prizes
- Attend weekly Saturday Sweat Sessions either in-club or at lifetime60day.com/go
- Complete the daily workout using the Life Time Training App
- Try out the 60day approved recipes at lifetime60day.com/recipes
- Download your resources at lifetime60day.com/go

ACHIEVEMENT WEEK

- Take four "after" photos (front, side, back and lifestyle)
- Submit your photos and story October 31 to November 7
- Vote for your favorite story November 21 to 23
- Watch the website on November 30 as we announce all winners at 12pm CST

Your Program Calendar

Frequently Asked Questions

When Does the 60day Challenge Start?

The 60day Challenge officially starts Saturday, September 10. You'll complete your kickoff appointment with a Personal Trainer over the weekend (Sep 10 to 12), so you can begin the 60day challenge with a plan in place and hit the ground running.

How Can I Track My Stats During the Challenge?

The Life Time Training app will be available for you to track your progress throughout the challenge.

How Do I Access the Daily Workouts?

Once the Challenge starts, you'll find your daily workout in the Life Time Training App. You can download the Life Time Training App following this link here: [Life Time Training App](#). Your workout program will begin on Monday, September 12.

How Do I Access the Meal Plans, Recipes, Tips and Virtual Coaches?

All your additional resources are available on the participant-only page, which is found at www.lifetime60day.com/go. There you can use the secondary navigation bar to see what's featured as the weekly content or select from the "Quick Links" area if you'd like to go directly to a page.

What are the Saturday Sweat Sessions?

The Saturday Sweat Sessions are exclusive Challenge participant workouts that take place each Saturday during the 60day Challenge. These are a great way to learn tips from our fitness professionals and get a great trainer-led workout in every week.

Where Can I Upload My Photos and Story?

You can keep your before photos saved on your device until the end of the Challenge. You can submit all seven photos (before and after) and your story to www.lifetime60day.com/submit anytime between October 31 to November 7 by 9:00pm CST.

How Do I Modify for XYZ Injury?

If you have a limitation or are in need of exercise modifications, send the 60day coaching team a message in the Life Time Training App or email the team at 60day@lt.life. We're happy to connect you to a fitness professional to discuss customized programming options for your needs.

Do I Have Access to the Workouts When the Program is Over?

You will have access to the 60day workouts until you choose to enroll in another program within the Life Time Training App.

Before and After Photos

Taking progress photos is an important part of any body transformation journey – even if you don't intend on sharing these photos with anyone. Progress photos are a great way to track your success beyond the scale, as your body's appearance may change even when the number on the scale won't budge.

For the purpose of the 60day Challenge, you will take three “before” and four “after” photos: Front, side, and back. Additionally, an “after” Lifestyle photo. We highly recommend these are taken at home and saved in a safe place on your device.

Do not submit these prior to October 31.

To receive top marks during judging, follow these guidelines:

- Dress in a swimsuit or similar clothing – clothes in your “after” photos should closely resemble clothes in your “before” photos
- Clearly shown participant wristband– recommended, not required
- Show at least $\frac{3}{4}$ body to show full transformation
- Stand comfortably, without pushing out or sucking in your stomach
- NEW “Lifestyle” after photo:
 - a photo of you in normal attire that you feel your best and confident in
 - aim to avoid other people in the background of your photo

The WHOOP Challenge

**UNLOCK FASTER RESULTS WHEN
YOU JOIN THE WHOOP COMMUNITY**

Here's How To Get Started:

1. Join WHOOP for 15% off. WHOOP 4.0 and battery pack included.
2. Download the app and join our 60day WHOOP team with code [COMM-60DAYS](#).
3. Team up with other members and work towards better sleep, faster recovery, and smarter training.
4. Earn prizes and WHOOP Swag throughout the challenge.

NUTRITION TIPS

60day™ Challenge

Nutrition Non-Negotiables

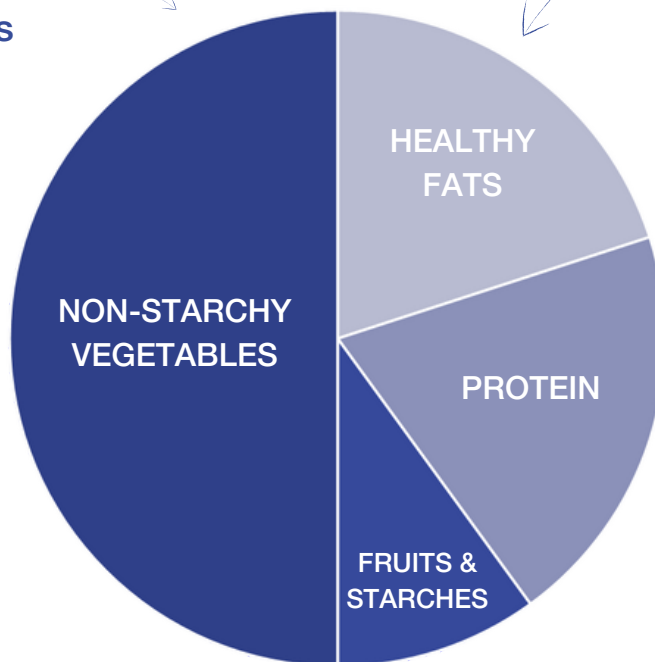

- Focus on getting ample protein at every meal
- Fill half your plate with non-starchy vegetables at every meal
- If you're not used to preparing food, use more prepackaged foods for convenience
- Eat only when you are truly hungry, not based solely on the clock
- Supplement the food you eat with a high-quality multivitamin and fish oil daily
- Plan to eat at least 5 cups of colorful vegetables each day
- Drink at least 64 oz. of water each day
- Choose high-quality protein whenever possible
- Add natural, unprocessed fats to flavor your meals
- Document your success with these strategies

Your Healthy Plate

Healthy eating can be flexible – it just takes the right foods put together in the right balance. Use the guide below as an inspiration to put together meals with the proper emphasis on different food categories to help both boost your satisfaction and drive results.

Fill Half Your Plate with a Rainbow of Colors

- Asparagus
- Beets
- Broccoli
- Broccolini
- Brussels Sprouts
- Cabbage
- Carrots
- Cauliflower
- Celery
- Cucumbers
- Green Beans
- Kale
- Leeks
- Lettuce
- Mushrooms
- Onions
- Peppers
- Sauerkraut
- Spinach
- Squash
- Tomatoes
- Zucchini
- Zucchini Noodles

Add Flavor with Good-For-You Fats

- Avocado
- Avocado Oil
- Butter or Ghee
- Coconut Oil
- Olive Oil
- Nuts & Seeds

Protein at Every Meal

- Beef
- Chicken
- Dairy Products
- Eggs
- Fish & Seafood
- Non-Animal (Chickpea, Rice and Pea) Protein Powder
- Pork
- Turkey

Berries are Best

- | | |
|--------------|----------------|
| Apples | Pears |
| Beans | Potatoes |
| Blackberries | Raspberries |
| Blueberries | Strawberries |
| Corn | Sweet Potatoes |
| Lentils | Rice |

Your Grocery List

BEEF

*Grass-Fed

- Filet Mignon
- Ground Beef
- Round Steak
- Sirloin Steak

FISH

*Wild-Caught

- Cod
- Halibut
- Lobster
- Salmon
- Scallops
- Shrimp
- Tuna
- White Fish

POULTRY

*Free-Range/Pastured

- Chicken
- Eggs
- Turkey

PORK

*Pasture-Raised

- Bacon, Nitrate-Free
- Pork Chops
- Pork Loin

DAIRY

- Aged Cheese
- Block Cheese
- Cottage Cheese
- Milk
- Pastured Butter, Organic
- Plain Greek Yogurt
- Ricotta Cheese

Dairy Alternatives

*Avoid Carrageenan

*Choose Unsweetened

- Almond
- Coconut
- Macadamia

Your Grocery List

60day[™] Challenge

RED

*Purchase organic if possible

- Apples
- Beets
- Cabbage
- Cherries*
- Cranberries
- Peppers*
- Pink Grapefruit
- Pomegranates
- Radishes
- Raspberries
- Rhubarb
- Strawberries*
- Tomatoes
- Watermelon

ORANGE & YELLOW

- Apricots, Fresh
- Cantalope
- Carrots
- Lemons
- Mangoes
- Nectarines*
- Oranges
- Peaches*

- Pears*
- Pineapple
- Pumpkin
- Rutabagas
- Squash
- Sweet Potatoes
- Tangerines

GREEN

- Artichokes
- Asparagus
- Avocados
- Broccoli
- Brussels Sprouts
- Cabbage
- Celery*
- Collard Greens
- Cucumber
- Green Grapes
- Green Beans
- Green Onions
- Honeydew
- Kale
- Kiwi
- Lettuce
- Limes

- Peas
- Spinach*
- Zucchini

WHITE

- Bananas
- Cauliflower
- Coconuts
- Fennel
- Garlic
- Jicama
- Leeks
- Mushrooms
- Onions
- Parsnips
- Shallots
- Turnips

PURPLE

- Blackberries
- Blueberries
- Eggplant
- Grapes

Coach Tips:

- Aim for three non-starchy vegetable servings for every one fruit serving
- Keep starchy vegetables to ½ cup at a time on days that you are active (potato, corn, peas, winter squash)

Your Grocery List

STARCHES

- Black, Pinto, White Beans
- Brown Rice
- Cannellini Beans
- Chickpeas
- Lentils
- Plain Oats
- Potatoes
- Quinoa
- White Rice
- Wild Rice

APPROVED SWEETENERS

- Allulose
- Monk Fruit (usually granulated)
- Stevia — liquid or extract

OILS

- Avocado Oil
- Coconut Oil
- Olive Oil
- Sesame Oil

NUTS & SEEDS

- Unsweetened nut butters, such as almond butter, sunflower seed butter, pumpkin seed butter
- Raw nuts, such as almonds, pecans, cashews, walnuts, macadamia nuts

FLAVORS/SEASONINGS

- Individual dried herbs and spices, such as cinnamon, oregano, etc.
- Coconut Aminos (soy sauce alternative — gluten and soy free)
- Extracts, such as almond, vanilla and maple
- Vinegar, such as red wine and apple cider vinegar

The Signature Shake

What is it?

Life Time's signature All-in-One Shake is a convenient, tasty and easy-to-mix option that's designed to support recovery from your workouts, help control cravings and provide the protein needed to help change body composition. It's made specifically for those who want a healthy and high-protein on-the-go shake that is satisfying and provides vitamins and minerals that are essential for energy.

Why we love it.

At Life Time, we prioritize quality manufacturing, careful ingredient selection, and rigorous testing standards to ensure that the shakes not only taste great but are also pure and effective.

- More than 50% of the daily value of vitamins and minerals to support metabolism
- Digestive support with added probiotics and digestive enzymes
- No added sugars — naturally flavored and sweetened with monk fruit and stevia
- 30 grams of protein per serving

60day Coach Tip:

Members who have the most success in the 60day challenge increase their protein intake.

The Signature Shake

60day[™] Challenge

How to use it.

Meal or Snack Replacement

If you're unintentionally skipping meals or consistently making on-the-run or unhealthy choices for a given meal, using protein powder to make a shake replacement can be a healthy lifesaver. You can either blend it using one of the provided recipes, or simply shake it up with water and go.

Plan B

Keep a serving of protein powder in a shaker cup stowed away in your office or car to serve as a great backup plan. If you're in a pinch, simply hit it with water and shake it up and you're set.

Post-Workout

In that first hour after a strenuous workout, you can opt to consume extra protein to help replenish and rebuild.

Boost Protein in the Foods You're Eating

Adding protein powder to yogurt, oatmeal or even coffee can give you an added boost. Check out additional ways you can use it here: "[10 Genius Ways to Use Protein Powder.](#)"

What's the best way to purchase?

You can shop our online Health Store following the links below or stop in a LifeCafe for a quick pickup. Connect with your trainer to receive exclusive member pricing.

EXERCISE TIPS

60day[™] Challenge

Exercise Non-Negotiables

- Complete a warm-up before every session
- Do strength training at least twice per week
- Strength training sessions should focus equally on muscle groups
- Do cardio at least twice per week
- Spend 80% of your time in heart rate zones 1 to 3
- Stretch and cool down after every session
- Ensure 7 to 8 hours of sleep daily for adequate recovery
- Prioritize fat burning during exercise (rather than calories or carbohydrates)
- Keep a gym bag packed to keep you accountable
- Track your workouts in detail to track progress or plateaus

Foundational Movements

Foundational movements mimic activities we do throughout our daily life (i.e. squat down to pick something up, push a heavy object, etc.) and train the body as it is designed and intended to move. The foundational movements enlist multiple muscle groups, therefore developing these six movement patterns will give you the most bang for your buck when training.

Every single workout provided in the 60day and by Life Time includes these six foundational movements to improve strength, prevent injury, and aid overall health.

The six foundational movements include:

SQUAT

LUNGE

ROTATE

PUSH

PULL

HINGE

How to Warm Up

A proper warm-up before starting any activity is crucial to prevent injury and prime your muscles to burn maximal fat calories during your workout. The warm-up also plays a significant role in your workout session's effectiveness—possibly doubling the amount of fat you burn during the exercise.

Completing a metabolic warm-up is one of the most effective ways to get your blood flowing, increase your heart rate gradually, and prep your body for exercise. This 8 to 10-minute warm-up session aims to gradually increase your heart rate by training in the five heart rate zones (learn more about heart rate zones on pages 22 and 23). It starts with a leisurely walking pace, and every two minutes, the speed or intensity (incline) gradually increases to progress into the following heart rate training zone. The chart below shows what this warm-up should look like.

Another great option to warm up, prime your muscles, and prevent injury is a dynamic warm-up. This type of warm-up consists of a series of continuous movements done in a controlled manner. It helps prepare muscles for activity, by increasing blood flow to muscles, raising core body temperature, and improving range of motion. A dynamic warm-up can be a great method to incorporate into your workout plan.

Some examples of dynamic warm-up movements include:

- Glute Bridge
- Cat-Cow
- Inchworm
- Hip Opener with Rotation

How to Strength Train

Did you know that you burn calories even after you get done strength training (yes — even at rest, you'll still be burning calories post-workout). Not to mention, you'll probably start seeing changes in appearance faster by incorporating strength training exercises.

Follow the below guidelines to make the most of your program:

- Spend at least 3 days at the club working on resistance training
- Try to do 8 to 12 repetitions per move, at least 3 or 4 times (sets)
- Do what you are most comfortable with or what you have time for — nearly all strength training (done correctly) will be beneficial and assist you in reaching your goals

Definitions

Sets

The number of times you will repeat a series of exercises before moving on to the next exercise.

Reps

The number of times you will repeat a single exercise consecutively within a set.

Circuit

A circuit is a series of sets you complete one after the other, without a prescribed rest in between. For example, you may complete three exercises, one set each, and then complete your rest. If you are prescribed three sets of the circuit, you would do this three times, with only three rests total.

Adjusting Your Program

When to Progress

If you can exceed the number of reps for all prescribed sets, increase the weight the following week. When progressing upper body exercises, increase the load by 2½ to 5 pounds. For lower body exercises, increase the load by 5 to 10 pounds.

When to Regress

If you are experiencing extended soreness, cannot finish the number of reps for all prescribed sets, or have a poor night's sleep, consider regressing the program. Decrease the number of sets you complete on each lifting day or consult with a Fitness Professional to customize your program further.

How to Complete Cardio

Cardio is how we train our bodies to become more efficient fat burners, and we do this by utilizing heart rate zone training. You've all experienced working out in the five different heart rate zones, whether you know it or not. Resting, walking, jogging, running, sprinting, or other activities that increase how hard you work are all within heart rate zones.

Our bodies typically burn fat as the primary fuel source in Zones 1, 2, and 3. At that point, you hit your anaerobic threshold (A.T.) and start using carbohydrates as the fuel source in Zones 4 and 5. Your fuel source is primarily why we do heart rate training — not only do we want to make sure we're burning primarily fat as we do cardio, but we also want to make our bodies efficient at burning fat. Working out in Zones 4 and 5 burns carbs, but it also makes our bodies better fat burners, which is why we want to balance our cardio between all five heart rate zones.

What Does Each Zone Feel Like?

Zone 1

Feels easy, like you could go for hours

Zone 2

Breathing is heavier, but you're fairly comfortable

Zone 3

Breathing feels heavy and you are working hard

Zone 4

You feel winded and you're pushing yourself very hard

Zone 5

You can barely catch your breath — you're at your body's absolute max

How to Find Your Zones

Use the below chart to estimate your heart rate zones based on your anaerobic threshold (A.T.).

Determine your anaerobic threshold as follows:

STEP 1

Calculate

$$(220 - \text{age}) \times 0.9 = \text{A.T.}$$

STEP 2

Locate

Round your A.T. to the nearest 5 and locate your value in the grey bar below.

STEP 3

Find Your Zone Ranges

Track vertically up and down from your A.T. to understand your Zones 1 through 5.

Zone 5	132	138	143	149	154	160	165	171	176	182	187	193	198	204	209
Zone 4	121	126	131	136	141	146	151	156	161	166	171	176	181	186	191
A.T.	120	125	130	135	140	145	150	155	160	165	170	175	180	185	190
Zone 3	108	113	117	122	126	131	135	140	144	149	153	158	162	167	171
Zone 2	84	88	91	95	98	102	105	109	112	116	119	123	126	130	133
Zone 1	83 72	87 75	90 78	94 81	97 84	101 87	104 90	108 93	111 96	115 99	118 102	122 106	125 108	129 111	132 114

How to Cool Down

Helping your body return back to baseline after a workout and properly recovering can be just as important in achieving your results as the workout itself.

A few options to integrate into your workout plan include:

Active Recovery

To complete an active recovery after your workout, select a cardio activity like a stationary bike or elliptical to continue light activity in zone 1. Active Recovery promotes circulation throughout the body and gradually brings your heart rate and core body temperature down to normal.

Static Stretching

This activity is best to do during cool-down (rather than a warm-up) and includes holding a stretch for 30 to 45 seconds at a time.

Foam Rolling

This technique – also referred to as self-myofascial release (SMR), is a form of massage that helps with circulation, reduces tissue tension and muscle soreness, and improves flexibility and range of motion. A foam roller is a dense, firm cylinder-shaped exercise tool used to place a body part directly on the roller and move rhythmically to apply pressure to tissues.

Incorporating a variety of cardio and resistance training workouts throughout your week is essential for helping you meet your goals. However, attention to a few areas that are often overlooked can significantly impact your overall health and fitness results.

Check out the six areas below to learn how to optimize every workout:

Complete a Quality, Effective Warm Up

Spend 8 to 10 minutes before jumping into your workout to gradually increase heart rate, blood flow, and core body temperature – this allows the body to warm up all of its metabolic systems that you will use throughout that day's workout.

Include Foundational Movements

The six foundational movements should be the roadmap to your workout plan every week. They recruit a large amount of muscle mass and provide significant stimuli to change your body's fitness and physique.

Allow Sufficient Recovery Time Between Exercises and Sets

Often this is an area during the workout session that is either given too much or too little attention. Rushing through the workout and not properly resting between sets or exercises doesn't allow your body to reap the benefits of the movements. While too much rest may not stress the muscles for optimal gains. Generally, about 45 to 90 seconds for those bigger lifts such as squats, deadlifts, bench-press, etc., is recommended.

Proper Breathing Techniques

This mindful tactic allows your body to get into the correct supported postural positions to produce as much strength as possible for that specific movement, which ultimately translates to a better workout. Breathing properly is especially important when progressing throughout your exercise program and lifting heavier weights week-over-week.

Cool Down Every Time You Workout

Be sure to finish your workout session with time dedicated to appropriate recovery. Light, low-intensity activity, static stretching, or foam rolling can be great activities to integrate into your routine to maximize results.

APPENDIX

60day™ Challenge

Weekly Habit Tracker

Each week, fill in the blanks with habits you'd like to maintain throughout the 60day Challenge. Check the circle each day you achieve your habit.
