INSTRUCTIONS:

Complete three rounds of each straight set and two rounds of each superset. On the supersets, have your weights ready and perform exercises 1 and 2 back-to-back. Rest for 30-60 seconds between sets and repeat for each following round. Your weight should feel challenging but doable with good form. If you can't complete at the minimum number of reps assigned, your weight is too heavy. If you can complete 3-5 reps more than the maximum number of reps prescribed, it's too light. Record the weight you used, and sets and reps in your workout journal or in VLT and try to do a little better next time by lifting heavier weight, performing more reps, or taking shorter rest breaks.
